Kevin:

It is so exciting that our latest DVD project is coming to a close. I can't tell you how much we appreciate your guidance creatively; your team's professionalism and your ability to conceptualize what started out as just a rough idea into exactly what I wanted.

Trying to put all of the corporate services Cooper Aerobics Center offers into visual form and onto one DVD was definitely a challenge, but I truly believe the finished DVD is going to be an incredible sales tool for our staff to highlight how our services can benefit the health and wellness of their employees.

In addition to this project, I appreciate that you have always been able to help when we needed filming if a special event was taking place on campus or if Dr. Cooper had a special project that needed filming.

Looking forward to our next project!

Sincerely,

A handwritten signature in black ink that reads "Sarah Grohmann". The signature is fluid and cursive, with a large initial 'S'.
