

Dear Kevin,

I want to thank you and your team for the great work you did for us regarding the *Texas Youth Fitness Evaluation Project*. As usual this was one of our projects that we "needed by yesterday" but as always, DFW Video came through with flying colors! From the video shoot (great job with the lighting and makeup by the way) to the editing to the duplication you guys always over-deliver and amazingly, do it in an incredibly timely manner. Your expertise allows me to concentrate on the "content" side of things because I know you will always take care of all the "technical" considerations. I also appreciate your attention to detail and willingness to make any changes or edits that I request. There's a reason that you are the first person I ever call when we have video or production needs. Your team is outstanding!

Thanks again,

Todd
